

Date: 29 November 2019

FURHOLT RICHARD I OCHOA
FRIGGS GATE 11
4011 STAVANGER

NAV has approved your application for 80 per cent parental benefit

Name: FURHOLT RICHARD I OCHOA

National identity number: 04068528157

We have reconsidered your case, and you are entitled to parental benefit. We have therefore changed the decision you previously have received.

You will receive 461 kroner per day before taxes starting from 4 November 2019. This is 9,988 kroner on average per month. The last day you will receive parental benefit is 6 January 2020.

Your employers pay you wages while you are on leave. The remainder of the parental benefit will be paid by NAV within the 25th of each month. Check your payments at nav.no/utbetalinger.

The other parent is not entitled to parental benefit. You will therefore be granted the whole parental benefit period.

You have lone care for the children and will therefore be granted the whole parental benefit period.

We have extended the parental benefit period by 5 weeks because you are expecting more than one child.

The parental benefit period starts three weeks before the estimated date of delivery. You have not claimed parental benefit from 4 November 2019 up to and including 6 December 2019. You will therefore lose this day.

Because you gave birth before the due date, you lose 1 day of parental benefit.

We have received new income information. We have therefore changed the amount you are going to be paid.

You will receive 461 kroner per day before tax. This amounts to 9,988 kroner per month, on average. Check your payments at nav.no/utbetalinger.

There are 60 days remaining of the parental benefit period. You must apply for these days by 27 March 2020.

Income we have used in the calculation

We have used the income figure of 599,148 kroner a year before taxes to calculate your parental benefit.

We have used 62,917 kroner per month before tax in the calculation of your parental benefit. This is the pay you have received from your previous employer after the employment relationship ended.

Your income as a freelancer is 62,917 kroner per month. Your client or clients have provided us with this information.

This is the average of your income you have had as an employee and as a freelancer, over the last three months before the start of the parental benefit period. If you have just started working, changed your employment situation or your pay has changed, we have used your monthly income after the change took place.

Your parental benefit has been stipulated at 599,148 kroner per year, which is six times the national insurance base amount. You earn more than this, but you will not receive parental benefit for the portion of your income that exceeds six times the national insurance base amount.

Because you have chosen 80 per cent parental benefit, you will be paid less per month.

The calculation has been made in accordance with the National Insurance Act Sections 14-7 and 8-30.

You must notify any changes

You must notify NAV immediately of any changes that might affect benefits you receive. See nav.no/rettogplikt for more detailed information.

You have the right to appeal

You may appeal within 6 weeks from the date you received the decision. You will find the relevant form and information at nav.no/klage.

You have right of access

Go to nav.no/ditnav to see the documents in your case.

Do you have questions?

You will find further information at nav.no/familie.

Yours sincerely

NAV Familie- og pensjonsytelser
